

## ADVANCED TRAUMA LIFE SUPPORT (ATLS®)

ATLS® is the standard of care identified by the American College of Surgeons (ACS) for physicians who intervene with trauma victims at all levels of clinical practice. ATLS® utilizes a systematic, concise methodology for assessment and initial stabilization of the multiply injured patient. Lectures and interactive practicums address initial assessment, airway and ventilation, shock, thoracic trauma, abdominal trauma, head trauma, spine and spinal cord trauma, musculoskeletal trauma, burn and cold injuries, trauma of pediatric and obstetric patients, and transfer considerations. ATLS® courses are presented in conjunction with the ACS Ohio Committee on Trauma.

**Credits:** 19 hours of Category I CME  
**Format:** Lectures and hands-on skills stations with Moulage practicum  
**Class size:** Maximum 24 / Minimum 16  
2-day course, March 16 and March 17, 2012

Fax – 216-844-7840

## OVERVIEW

Trauma continues to be the leading cause of morbidity and mortality in the 1-44 age group, killing more young Americans than cancer, heart disease, and stroke combined. Trauma claims a life every six minutes and is responsible for serious disability every three seconds, yet more people are surviving critical injuries than ever before. This is due to the training of expert trauma care providers with advanced trauma skills.

**Rainbow Babies and Children's Hospital** is pleased to coordinate this professional educational opportunity for trauma surgeons and other physicians caring for the injured. Nurses, emergency medical technicians, and other non-physician providers may audit the course.

**REGISTRATION:** Fax to 216-844-7840; mail to Rainbow Pediatric Trauma Center, Attn: Ellen, 11100 Euclid Avenue, COR 6039, Cleveland, OH 44106; or e-mail to [ellen.fitzenrider@uhhospitals.org](mailto:ellen.fitzenrider@uhhospitals.org)

**Note: Manuals will not be mailed unless tuition is paid in full.**
